

HARSHWARDHAN RAJENDRA DESHMUKH
Course : **B.Tech**, Computer Engineering, 2025
Email : desh mukhr21.comp@coeptech.ac.in
Mobile : 7387058440
CGPA : 8.27

ACADEMIC DETAILS				
COURSE	INSTITUTE/COLLEGE	BOARD/UNIVERSITY	SCORE	YEAR
CLASS XII	Deogiri College, Aurangabad	Maharashtra State Board of Secondary and Higher Secondary Education (MSBSHSE)	96.67 %	2021
CLASS X	SBOA Public School, Aurangabad	Maharashtra State Board of Secondary and Higher Secondary Education (MSBSHSE)	93.4 %	2019

Subjects / Electives	Data Structures and Algorithms, Rapid Prototyping Practice using Object Oriented Programming
	Android Development, Web Development, Machine Learning, React.js, Java, Python3, C++ Language, C Programming
Technical Proficiency	

PROJECTS	
Full Stack Native Android app for COEP Library - Android Development	May 2023 - Jun 2023
In this project, a native android application is developed using Java, XML and for the backend cloud-hosted Firebase Realtime Database is used. This app encompasses all the necessary operations for managing the system along with user friendly UI/UX .	
Github link	
JobConnect: A Job Finder Platform for Students - Web Development	Jul 2023 - Present
In this project, a user friendly web application is developed which bridges the gap between students seeking opportunities and companies offering employment. With focus on usability and security, it simplifies job search process, while helping companies get the candidates shortlisted as per the required job demands	
Github link	
Roommate allocation using Gale Shapley Algorithm - Data Structures and Algorithm	May 2023 - Jul 2023
Designing a system for making stable matches of roommates and allocating rooms to them using Gale Shapley Algorithm and bipartite graph by taking into consideration the preferences of all the students towards each other and rooms.	
Github Link	
Image Manipulation using QuadTrees - Data Structures and Algorithm	Jul 2023 - Aug 2023
In this project, Quad Trees are used for efficient representation and manipulation of images. Hierarchal partitions of an images into smaller rectangular regions is done, allowing for various operations such as image compression, decompression, rotations, merging two images and image editing filters.
